

# SCHOOL BANNERS

We start the awards ceremony with the parade of champions, which showcases every school that sends a team to competition. Each SCHOOL (not team, not membership) should create a banner for the Odyssey awards ceremony.

- ★ It should be NO larger than four (4) feet wide by five (5) feet tall.
- ★ It must have straps that allow it to be tied or looped over a one inch PVC pipe.
- ★ It must have the school's name in large letters that can be seen from a distance.

It may have other decorations or information, and be any color, fabric, material, etc. that the school deems appropriate.

We will provide the stand and T-shaped pole for carrying the banner in the parade. The stand holds the base of the pole.

For those schools that don't make or forget to bring their banner, paper and paint will be provided to make one onsite the day of the tournament. Make sure the banners are retrieved at the end of the awards ceremony.

In addition, decide how to choose ONE team member to carry the banner. The banner carrier should report to the awards ceremony site 20 minutes prior to the start of awards to put the banner on the pole. An adult can help with this process. The rest of the membership (team members and coaches) will sit on the gym floor and cheer wildly when their banner comes through the door.
